

# Federal OSDBU Green Small Business Pledge

President Obama signed Executive Order (EO) 13514, "Federal Leadership in Environmental, Energy, and Economic Performance," on October 5, 2009. This EO requires each agency to develop integrated performance strategies and goals towards sustainability in the Federal Government; to make reductions in greenhouse gas emissions a priority; and to ensure 95% of all new contracts meet sustainability requirements set forth in Strategic Sustainability Performance Plans.

*As a federal OSDBU Director I pledge to provide the small business community with greening resources and outreach information to assist them in remaining competitive in the government-wide procurement process, which is moving forward in environmentally sustainable business practices.*
